

Eric Baca - Personal Status Report #6

1. Goals from a Week Ago

- Our plans for last week were to finish our individual Software Engineering assignments, as well as to complete Sprint 6 together once we meet as a group. We each continued to work on our individual parts of the website which were assigned earlier on.

2. Progress Made This Week

- We completed Sprint 6. My role in sprint 6 was to create the event rating feature, however, another team member who was assigned to the Rsvp feature was having difficulties starting last week, so I helped by taking over that feature and was able to complete it on Tuesday thanks to the TAs help due to a mistake I had made on it. Additionally, The team member who was assigned to Rsvp pivoted to other parts of the website including our new Report functionality, which I also assisted with. Overall, much progress was made on the app this week and we are nearing completion.

3. Plans and Goals

- Our plans for next week are to complete Sprint 7 together and individually. We each will work on our individual parts of the website which we assigned earlier on. We will also work on our presentation.

4. Agenda for Meeting with Instructional Team

- Meet this Thursday, April 29th
- Discuss group project moving forward
- Discuss group presentation
